

THE REAL TRANSFORMATION PROGRAM

What is the Real Transformation Program all about?

This is a 12-week program for Real people and not a “Boot Camp” or some other fad diet program that does not take into consideration your “real lifestyle,” or what sort of condition you are currently in. This is a program that will transform your body and get rid of fat, old habits, and expose bad decision-making, which has put over 65% of the American population in a state where percentage wise we have more fat on our bodies than most other nations. You will be inspired to have fun as you learn nutritional secrets and participate in a fantastic workout program that is designed just for you. Certified Personal Trainers as well as a Registered Dietician will monitor your 12-week adventure to assure you the results you are looking for.

What if I’m not very physically fit?

Because this program was designed for “Real people” we give each member a physical evaluation, using the internationally recognized PAR-Q evaluation process. This determines your readiness for physical activity so that the program designed for you will take into consideration you as an individual and not over stress or make demands on you that you cannot handle. The program is designed to be effective yet take into consideration that everyone is different and not one program will work for everyone. For this reason alone we believe we see the results that we do with our transformation program.

Is this some sort of a GYM membership program?

While we use the facilities of Real Fitness it is not a long term membership that has you paying month after month even when you are not attending. This is just 12-weeks long, fun filled and a life changing experience that gives you all the benefits of a state-of-the-art workout and wellness facility, use of our patent pending nutritional online program, access to all the group classes, without any of the perceived hassles associated with some long term gym memberships.

What will I be investing in myself to change my body?

About \$3.93 a day. You can’t even buy a specialty coffee drink for that amount! There are no special foods to purchase, no special exercise equipment to invest in as we provide everything including the use of a certified and registered nutritionist who will review your food choices every week during this process. The total cost is just \$333.00 and the program comes with a **money back guarantee!** You have nothing to lose but fat.
